Capital over \$165,000—in Cash and Premium Notes.

"MHS Company offers unrivalled facilities for the insurance of Buildings and Fersonal Property against fire. The advantages offered are security beyond the reach of the contantances, as the real estate historie is by law bound for the assessment made to cover losses beyond the power of erasion. Every person lineared is a maber of the Company, and entitled to one vote. The cost of insurance does not acceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable case with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost othe property instired, not exceeding two mills on the dollar. Its business is principally confined to this State.

Opening of the Great Western Railroad.

We have a letter from Mr. SHEARS, the Gene ral Western Agent of the Great Western Railway, apprising us that the Opening Excursion Till over that road, from Detroit to Niagara Falls and back, will take place on the 16th and 17th instants. The Excursion Train will leave Ningara Falls on the morning of the 16th instant (Monday week) and the invited guests will dine with the Authorities and Citizens of Detroit that evening. They will return on the 17th instant and pertake of the hospitalities of the critizens of Hamilton, Canada West, the same evening. Gueste will be allowed to return when they like, as the regular trains commence running on the 18th instant, Wednesday week. Meantime travel over the road is suspended, in order to allow the construction trains every facility to complete the work by the day appounced. The Members of the Press in this city, and a number of our prom inent citizens have been invited to participate in these festivities, and we hope that Milwaukee will be worthily represented on an occasion of 50 much interest to our City and State.

The opening of the Great Western will be a

new era for the West. It affords another and an admirably constructed thoroughfare for traffic and travel between the Atlantic seaboard and the prolific and progressive North West. The road is andoubtedly one of the best and most costly structures on this continent, and cannot fail to do an immense business. It brings Detroit within easy 24 hours ride of New York City, and if the mails for the west shall be brought over that route (as we hope they will) brings us also a day nearer to the Commercial metropolis of the Union. The city of Detroit will derive very great advantages from the opening of this new route; and her capitalists and business men will find in its triumphant success fresh incentives to push forward the Oakland and Ottawa Rail Road to Lake Michigan, and thus secure to themselves, beyond all chance of competition, the great, growing and almost illimitable trade of Wisconsin, Iowa, Minnesota, and the vast regions beyond.

The warden refused to give him up, the commitment upon which he was sent being, by Mr Brown, deemed sufficiently in accordance with the statute. This is the first convict that Las died in the State Prison. He was buried behind the buildings outside the yard.

We have heard nothing of this plot to "defraud the people," and thought of, or will be attempted.

Our Rail Road.

We last week gave an article under the above head from the Milwaukee Sentinel, showing the precise situation of the Milwaukee, Fend du Lac and Green Bay Railroad. After showing what had been done, what amount of funds had been raised and how expended, the Sentinel proceeded to urge upon the farmets the importance of taking hold to assist in pushing on the enterprise.

This exhoration we again renew, and while we would urge upon farmers along the line the pher B. Kindlin. The case occupied the entire day resulted in the Court requiring the defendant to give bail in the sum of \$500 for his appearance before the Circuit Court to answer the charge—the defendant failing to give the bail, wascommitted to jail.

Jan 6th—Matthias Pfeitzer and Franz Huhm were tried this morning on the change of committing a wilful tresspass by cutting down growing trees, standing on the land of Alexander Mitchell in the town of Milwsukee, found guilty, and fined \$5 cact and the costs.

William Mulvauy, charged with assault with intent to commit rape, gave bail in the sum of \$5,00 for his appearance Saturday (this) morning as required by the Court, and was discharged.

The entire practicability and profitableness of the troad cannot for a moment be doubted. There is no more promising, milroad project in this State, or one, which, when built, will yield a richer return for the investment, or add more capital to the farmers, not only along its immediate line, but throughout all parts of the courty, the produce of which will prove the court. Every day new evidences of the value of this popula medicine reaches the ears of the public. A. friend of th Editor's, a contractor on the Pacific Bail Road, told him th Modest, VERY !- The time the officers were MODEST, VERY 1—The time the officers were searching the house of Squires, the New Hampshire Railroad robber, after his recent escape, he was securely hid in a straw bed, on which his wife was lying. To Procreason Holloway.

Dear Sir,—Mrs. Sansar Dixon of Liquorpond Street, Boston, his this day deposed before me that for a considerahie period ale was severely affilicled with Scrodiolus Sorciand Ulco s in her arms, feet, legs, and other parts of herbody; and although the first of meinical advice was obtained, at the cost of a lurge sum of money, she obtained no
abstement of suffering, but gradually girow wore.

Reing, recommended by a friend to try your Olutment,
she procured a small pot, and a low of the Fills, and before that was all used, symptoms of amendment appeared.

By presevering with the mudicines for a short time longur, according to the directions, and strictly adhering to
your roles as to diet, for, she was perfectly cured, and now
enjoys the best of health.

Dr. A. G. Reage, & Co., Gente: — Tou will probably recollect that i called into your establishment some three weeks since and purchased a fifty cent both of your Merican Measang Liminai. My object in doing so was to try its nervits upon my daughter's arm, who has been suffering from the officets of a severe dislocation of the el-low for several years post.

The excraciating pain consequent upon a false setting of the bow had dwindled and contracted her arm to a puny size, and I considered it a drift devolving upon me to acquaint the community of the beneficial effect your Liniment has prosenced.

Her arm was driven to a right angle, and was almost inert and senseless until your invaluable Liminant was applied, since which time I am happy to state the lass supjoyed uninterrupted good the eggl and easue her arm nearly all the contraction of the production of the product of the pro
